OPTIONS

Access this menu to make changes to the following game options.

Time	Set the match time limit (1 minute/2 minutes/3 minutes/Unlimited). Single Match Only.
Difficulty	Set CPU opponent difficulty level (Easy/Normal/Hard).
Sound	Adjust sound settings (Stereo/Mono).

◆Winning◆

The winning team is the team that knocks all of the opponent's infield characters out of competition, or has the most infield characters remaining when time runs out. If the number of infield characters is the same for both opponents when the time runs out, the match is declared a draw.

◆Out◆

When an infield character is hit by an opponent's throw, they are out for the rest of that match.

◆Court◆

Both sideline and infield characters are restricted to their respective areas of the court. Infield characters can enter the opponent's court and still attack, provided they are in the air (dash jump attack). Possession of the ball is lost if a character walks into, or lands in the opposing team's court while holding the ball.

◆Sideline Characters◆

Sideline characters are restricted to the sidelines and do not replace infield characters that are knocked out of a match.

◆Five Second Rule◆

Characters have five seconds after catching an opponent's attack in which to pass it to another character, or throw it at an opponent. If they do not, the opposing team gains possession of the ball.

◆Five Pass Rule◆

The ball can be passed amongst both the sideline and infield characters a total of four times. If a fifth pass is attempted, the opposing team gains possession of the ball.

◆Ten Second Rule◆

Each team can retain possession of the ball for ten seconds. If this time limit exceeded, the opposing team gains possession of the ball.

Characters can perform special throws by fulfilling certain conditions. Each team has a team captain (center court character at the start of each match). Team captains have a special throw only they can perform. Sideline characters cannot perform special throws. Special throws are executed via button combinations.

◆ Special Throw Conditions ◆

- Characters earn points for catching throws (1pt for normal throws, 2pts for special throws).
- Each of the infield characters can perform special throws. The type of special throws available to each infield character varies depending on their skill level.
- Back-to-back catches by the same character earns only one point. Spread the defense responsibilities around.
- The maximum number of points that can be earned by each character varies depending on their skill level (Level 1=2pts, Level 2=4pts, Level 3 [Team Captain]=6pts).
- Determining skill level:
A green glowing ball indicates the ability to use level one throws.
A yellow glowing ball indicates the ability to use level two throws.
A red glowing ball indicates the ability to use the level three throw (Team Captain only).

- Once ready to perform a special throw, input the button combination corresponding to the desired throw.

- The use of special throws decreases a character's points.

Level One	→ Two point reduction.
Level Two	→ Four point reduction.
Level Three	→ Six point reduction.
